CIMC Intermodal Equipment Wins Spot on Heavy Duty Trucking's 2019 Top 20 Award List

South Gate, CA (February 26, 2019) CIMC Intermodal Equipment's REVERE Premium Specification Intermodal Chassis is one of Heavy Duty Trucking's 2019 Top 20 Products. The Top 20 award will be presented to CIMC IE's representatives during the American Trucking Associations' Technology & Maintenance Council annual meeting at the Georgia World Congress Center in Atlanta March 18-21.

For this year's awards, HDT editors chose top products introduced in 2018 based on their level of innovation, ability to address significant industry issues, and potential benefit to the bottom line. Additional consultation with the HDT Editorial Advisory Board made up of fleet executives and managers finalized the Top 20 spots.

The REVERE 2019 Premium Specification includes superior component specifications from industry leading manufacturers, and carries the longest known warranty on non-wear parts for true low cost of ownership. The REVERE carries one 20' or one 40' ISO container.

"It's an outstanding accomplishment for everyone at CIMC Intermodal Equipment to have the REVERE chassis recognized by Heavy Duty Trucking for a product designed

especially for the North American fleet market,” commented Frank Sonzala, CIMC president and CEO. “It’s confirmation that we fully understand the needs of this industry segment. We certainly won’t rest on this achievement – it’s just one of many developments we are introducing as we continue to grow our market share in North America.”

About CIMC

As the world’s largest manufacturer of intermodal chassis trailers, CIMC Intermodal Equipment has revolutionized the chassis industry through laser metal cutting, robotic precision welds and a KTL powder-coat paint system to prevent rust and corrosion. CIMC-IE meets the needs of those customers who demand innovative designs with tough, long-lasting durability. Whether at our headquarters on the West Coast in South Gate, CA, in our newly renovated facility on the East Coast in Emporia, VA or through our vast nationwide dealer network, we welcome an opportunity to provide information regarding our products, large in-stock inventory, and discuss the needs of your company. Visit www.cimc-ie.com for more information.
